

A TIME FOR MUSIC

*Music came into my life quite unexpectedly
He brought with him a feeling that set my spirit free
A gentle, tender song that called out to my very heart
A rhythm and a sound from which I never wish to part*

*His rhythm is as gentle as the waves before me now
He brings a feeling that's so deep I can't imagine how
He is able to touch my soul, make fantasies unwind
With harmony and melody, that transcends time*

*Stay with me my music
Stay and keep me company
Share with me my feelings and
Join me in harmony*

*I sit beside the ocean and contemplate his style
Whether mellow or upbeat he leaves me with a smile
I'd like to have him by my side and keep him for all time
But there's one thing I know for sure, he's here inside my mind*
